Help Putting Funds into the Frames!

This is your opportunity to help fund the restoration of one of the locomotive frames that will be essential for the successful restoration of 21c11 / 35011 back into her original condition.

Not only do we need to clean and review the condition of the frames as they exist today, any corroded sections of the framework, the rear platform and dragbox will cut out and replaced. We also need to reverse some of the areas that were changed during rebuilding to allow a new middle cylinder to be installed and reinstate Bulleid's unique chain driven valve gear.

This a general fund with no minimum / maximum donation or number of contribution limits, all monies donated to the Fund for the Frames fund will be specifically ring fenced for the frames. If you are able to contribute to this project in any way however great or small, we Thank You for your support.

How to Donate

- By a cheque and enclosing you details to the address on the form below
- By completing the standing order mandate form below
- By online banking setting up payment / standing order payment BACS / Standing Order payment To sign up via BACS please email info@35011GSN.co.uk to confirm.
